## **CHALK**

### COCKSEAL<sup>®</sup> - CHALK

Household Insecticide  
Cypermethrin - 1.0%  
Adjuvants - 99.0%

### COCKSEAL<sup>®</sup> - CHALK

Cockroach Chalk is the most advanced Chalk available, providing cleaner, smarter, safest, faster and more Efficient method of cockroach controls.

### COCKSEAL<sup>®</sup> - CHALK

It contains CYPERMETHRIN 1.0% W/W. Chalk is a revolutionary formulation developed mainly keeping in view the cockroaches biology, behavior and safety of the people and environment. For a cockroach free home draw 2-3 thick parallel lines around dustbins, drain holes, lofts, cabin etc., which are frequently visited by cockroaches, with Cockseal Chalk preferably during night time. The effects is clearly visible in 2-3 hours. On glazed surfaces like tiles, wet the tip of the chalk to draw lines.
