RATSEAL®

PHOS

RATSEAL® - Phos

Phosphorus 3.00% W/W. Phos
(Household Insecticide)

RATSEAL® - Phos

Apply Ratseal Phos on pieces of bread, coconut or other dry food and place them at different areas of infestation. Collect and dispose off all dead animals and left over bait properly. If infestation is high, repeat dosage only on areas where the food was eaten. To prevent re-infestation with rodents, limit sources of leftover food, water and harborage as much as possible.

RATSEAL® - Phos

The Rodenticide when ingested acts as a stomach poison and kills the rat.
The best feature of Ratol Paste is the speed of results (Rats die in 2-3 hours). Due to a fruit base, the paste acts as an attractant.
